Message from The Church President

In the embrace of our spiritual community, let us never underestimate the power of being there for each other. As we walk this earthly path together, our collective support becomes an anchor, offering solace, strength, and unwavering love.

In times of joy, let us celebrate as one, sharing in the triumphs and blessings that come our way. And in times of struggle, let us extend a hand, a kind word, or a listening ear. By being there for each other, we create a sacred space where healing can unfold, burdens can be lifted, and hearts can find solace.

Together, we form a tapestry of interconnected souls, woven by the threads of compassion and unity. Our presence becomes a beacon of hope, lighting the way for those who may feel lost or alone.

Let us embrace the gift of community and nurture it with tenderness and understanding. In being there for each other, we demonstrate the power of love and solidarity. May our collective presence serve as a reminder that none of us need face life's challenges alone.

10 RULES FOR BEING HUMAN

Written by Cherie Carter-Scott in *Life is a Game, These Are The Rules*

1. You will receive a body. You may like it or hate it, but it's yours to keep for the entire period.
2. You will learn lessons. You are enrolled in a full-time informal school called, "life."
3. There are no mistakes, only lessons. Growth is a process of trial, error, and experimentation. The "failed" experiments are as much a part of the process as the experiments that ultimately "work."
4. Lessons are repeated until they are learned. A lesson will be presented to you in various forms until you have learned it. When you have learned it, you can go on to the next lesson.
5. Learning lessons does not end. There's no part of life that doesn't contain its lessons. If you're alive, that means there are still lessons to be learned.
6. "There" is no better a place than "here." When your "there" has become a "here", you will simply obtain another "there" that will again look better than "here."
7. Other people are merely mirrors of you. You cannot love or hate something about another person unless it reflects to you something you love or hate about yourself.
8. What you make of your life is up to you. You have all the tools and resources you need. What you do with them is up to you. The choice is yours.
9. Your answers lie within you. The answers to life's questions lie within you. All you need to do is look, listen, and trust.
10. You will forget all this.

What is happening in the sky? (for all signs)

Happy Birthday Cancer, Leo and Virgo!

July begins with the Sun in Cancer. During this time we embrace our family and we focus on our home life and our inner world. The Full Moon in Capricorn on July 3rd is a time to let go of old goals or structures in your life that are no longer working. The conjunction by Mercury to the Sun and the trine by Saturn to the Moon brings the energy to speak up about any issues you may have with authority figures.

July 18th brings the New Moon in Cancer. This is a great time to make wishes for a new home, start renovations, create your own safe space and begin self-nurturing practices.

When the Sun moves into Leo on the 23rd, we become playful and find the joy in life. On the same day Venus turns retrograde. Venus retrograde is a time to review your values and self worth issues may arise, so be kind to yourself and take some time out to self-nurture. Embrace the wonderful person you truly are. It's common during this time for old relationship issues to emerge and people from the past to come back into your life. Venus in her retrograde phase is asking you to deal with these issues once and for all, then move on feeling lighter and freer.

August 2nd brings the Full Moon in Aquarius. Release any fears and embrace your compassion for others, but let go of any friendships or groups that are no longer working for you.

The New Moon in Leo on August 16th is a great time to start a new creative project and find ways to creatively express yourself. Sudden transformation and change is likely with Pluto and Uranus making contact with this New Moon.

The Sun moves into Virgo on August 23rd and this marks a time of connection to the earthly realm. The following day, Mercury turns retrograde in Virgo. This is a great time to write down your innermost thoughts and spend some time making plans. As always, make sure to double check any important paperwork during this time.

August 31st brings us a Blue Moon in Pisces! A Blue Moon is the second Full Moon in a calendar month, which is a rare occurrence. This is a time to release old patterns, and destructive or addictive behaviour. A good time to release the need to be all things to all people. It is also conjunct to Saturn, which brings the opportunity to break down structures and boundaries.

THE WAY PEOPLE VIEW YOU...

Sometimes I think about the different characters I play in everybody's story.

I am a terrible person in some people's narratives and a Godsend in others. And none of it has anything to do with the person I truly am.

The lens that others view you through is coloured by their upbringing, beliefs, and individual experiences.

Some people see your bright personality as endearing and others see it as annoying. Some people think you're weak and emotional and others feel safe to be themselves around you. Some people think you're rude and selfish and others respect the way you stand up for yourself. Some people admire the way you take pride in the way you look and others think you're conceited. And none of it has to do with who you truly are as a person.

What you have to understand is that you have no authority over how people view you so never try to control the way others see you because the only thing that truly matters when the dust settles down at the end of the day is what you genuinely see in yourself.
