## Message from the Church President

In the midst of our ever-evolving lives, it is essential to pause and reflect upon the core belief that has guided us as a spiritualist community for generations: the continuous existence of the human soul.

Our spiritual tradition offers a unique perspective on life and death. We understand that our existence is a perpetual journey, and when we experience the passing of a loved one, it is not the final farewell it may seem. Rather, it is a transition - a profound shift from one form of existence to another.

At the heart of our belief lies the conviction that the human soul, akin to an eternal flame, persists beyond the physical realm. It carries with it the accumulated wisdom, experiences, and lessons learned from countless lifetimes. This soul is not bound by the limitations of time and space but roams freely through the vast expanse of the spiritual plane.

Embracing this belief offers us profound solace. It assures us that our departed loved ones are never truly gone; instead, they continue to watch over us, offering their guidance, love, and support from the spiritual realms. Furthermore, it serves as a poignant reminder of our own spiritual journey, urging us to live our lives with intention, empathy, and love.

As we gather together in the spirit of unity and growth within our spiritualist community, let us take a moment to immerse ourselves in the profound truth of the continuous existence of the human soul. Let it fill us with comfort, hope, and purpose, knowing that we are all interconnected threads in the rich tapestry of existence, where love transcends both time and space.

This belief should not remain confined to our hearts and minds. It should inspire us to be the best versions of ourselves, to embrace the light within, and to share the message of love, hope, and unity with a world that often hungers for these very qualities.

I look forward to seeing you at our Annual General Meeting on 07/10/2023.

*Charles Freeman  
President*

### **Autobiography in Five Short Chapters - By Portia Nelson**

#### **Act I**

I walk down the street,  
there is a deep hole in the footpath.  
I fall in.... I am helpless... It isn't my fault....  
It takes forever to find a way out.

#### **Act II**

I walk down the street,  
there is a deep hole in the footpath.  
I pretend that I don't see it. I fall in again.  
I can't believe I am in the same place,  
but it isn't my fault.  
It still takes a long time to get out.

#### **Act III**

I walk down the street,  
there is a deep hole in the footpath.  
I see it is there. I still fall. It's a habit.  
It is my fault. I get out immediately.

#### **Act IV**

I walk down the street,  
there is a deep hole in the footpath.  
I walk around it.

#### **Act V**

I walk down another street.

# What is happening in the sky? (for all signs)

Happy Birthday Virgo, Libra and Scorpio!

SEPTEMBER: September begins with the Sun in Virgo. During this time we spend time connecting with the earth and organising our life. On September 4th, Venus turns direct. Any issues you've worked through during the retrograde period can now bring a fresh start to your life from here-on in.

The New Moon in Virgo falls on September 15th. Start a new health regime. Begin to use affirmations for a positive mindset. Plant a herb garden. This New Moon has the potential to bring about the changes you'd like in your life so stay alert for signs from the universe.

Mercury turns direct on September 16th. Any plans made during the retrograde phase can now be put into place.

September 23rd sees the Sun moving into Libra, which is a time to focus on the relationships in your life. It's also the Spring Equinox, the time when light and dark are in balance. We ask ourselves if our own life is in balance during this time.

The 29th brings the Full Moon in Aries. Shine a light on yourself in order to gain true understanding. Are you living an authentic life? What's true for you? Let go of the 'old you'

OCTOBER: The 15th brings a Solar Eclipse in Libra. Start a new relationship or begin a new routine to improve your close relationships. Start counselling. Make wishes to attract 'the one'. Healing with words is possible under this eclipse. If you've fallen out with someone, this energy will help you make it right.

October 24th sees the Sun moving into Scorpio. This is a time for deep connections and self-empowerment. What areas of life can you have more control over?

The 29th brings a Lunar Eclipse in Taurus. Release old habits, declutter your space, tackle your garden. There is a lot of energy around this Full Moon Eclipse. It brings the courage to speak up and release old habits.
