Message from the Church President

We are most fortunate to live in Australia right now while there exists in our world the shadows of conflict and strife, while we may not be in a position to make a difference in a practical sense, our collective energy can be a force for healing and transformation. In our hearts, we carry the power to send out waves of positive energy, love, and healing vibes. At this time let us focus our intentions on the war-torn parts of our world, where hearts ache, and spirits yearn for peace. Through the universal language of energy and intention, we can create a healing current that reaches across borders and transcends differences.

During our meditations and prayers, let's channel our collective energy towards these regions, visualising a golden light enveloping the people, soothing their pain, and fostering an atmosphere of tranquility.

As we join hands in this energetic exchange, may our intentions radiate healing vibrations to those who need it the most. Remember, each one of us is a beacon of light, and when we unite our energies, we become a powerful force for positive change. Let's send forth our healing vibes to touch the hearts and minds of those affected by conflict. In doing so, we contribute to the universal mission of creating a world where love prevails, and peace becomes the guiding force in every corner of our shared existence.

May our intentions resonate across the cosmos, bringing comfort and solace to the places in need.

What is happening in the sky? (for all signs)

Happy Birthday Scorpio, Sagittarius & Capricorn!

November begins with the Sun in Scorpio. During this time we go deep within, exploring our dark side. The New Moon in Scorpio occurs on November 13th. Take steps to make the changes you need in your life. Become connected to others on a deeper level under this New Moon. The conjunction to Mars and opposition to Uranus brings the energy to make changes. A trine from Neptune asks you to listen to your inner voice.

On November 23rd, the Sun moves into Sagittarius. This is a time to embrace our truth. Be honest with yourself. Travel somewhere new. Explore your world. What makes you happy? November 27th brings the Full Moon in Gemini. Clean out old paperwork, emails, notes etc. Evaluate the value of networking groups. With a Mars conjunction to the Sun, there is strong energy to take action.

December 13th brings us the New Moon in Sagittarius. Book a trip. Start a new course or teach a course. Embrace new values and beliefs. The conjunction to Mars and trine to Chiron asks you to take action in order to bring about healing. Mercury also turns retrograde on December 13th, bringing a time of reflection. Hold off on signing paperwork if you can. If not, double check the details.

December 22nd Sees the Sun moving into Capricorn. This is also the time of the Summer Solstice and the longest day of the year. When the Sun is in Capricorn, we are asked to set goals and makes plans to achieve them.

December 27th sees the Full Moon in Cancer. This Moon is perfect for releasing emotions relating to family, especially mother. Purge your home, clearing out anything that is no longer used. The trine from Saturn brings the potential for emotions to arise when it comes to taking charge of our own life.

Merry Christmas everyone!
